

An Bord Réitigh um Pírit
Pyrite Resolution Board

Pyrite Resolution Board

30th Quarterly Progress Report

(Period Ending 30th June 2021)

30th Quarterly Progress Report Pyrite Resolution Act 2013 (Section 9)

1. Applications

A total of 2920 applications have been submitted to the Pyrite Remediation Scheme since its launch from 26th February 2014 to the 30th of June 2021. A number of applications have been closed for administrative reasons, e.g. duplicates, withdrawn etc. On average 7 applications were received per week during the second quarter of 2021.

These applications are spread across:

- 73 developments containing multiple applications
- 46 developments with only one application and
- 68 single site applications.

A full breakdown of the applications received by county/area is attached at Appendix A and the current status of all applications is set out in Appendix B.

2. Assessment, Verification and Recommendation Process

A total of 2555 applications have been validated and referred to the Housing Agency for the Assessment and Damage Verification Process.

Damage Verification, i.e. confirmation of damage attributable to pyritic heave, may be based on an individual dwelling or on associated dwellings. Associated dwellings may thus be verified on the basis of comparable damage and/or earlier tests with similar results. HomeBond arranges testing as required and the results are submitted to the Housing Agency.

3. Inclusion of Dwellings in the Scheme

Following the verification process, the Housing Agency makes a recommendation to the Pyrite Resolution Board (PRB) as to whether or not a dwelling should be included in the Pyrite Remediation Scheme. Thus far 2445 dwellings have been included in the Scheme and the applicants have been notified accordingly.

4. Tendering, Award of Contracts and Remediation

Of the 2445 dwellings included in the Scheme, the progress at key stages is presented in the chart below as follows:

5. Priorities and Programme

The Act and the Scheme set out the criteria that the PRB must have regard to in determining priorities. Priority cases are identified and placed appropriately within the programme. The Board is satisfied that this is working well.

6. Refusal of Applications and Exclusion of Dwellings from the Scheme

Refusal following the Validation Process

To date, a total of 136 applications have been refused following the Validation Process on the grounds that the Scheme's eligibility requirements were not met. This figure does not include applications that were successfully appealed, those that were withdrawn during the appeal process and applications which were closed for administrative reasons.

Exclusion of Dwellings following the Verification and Testing Process

To date, a total of 34 applications have been excluded following the Verification & Testing Process on the grounds that the Scheme's eligibility requirements were not met.

7. Appeals

Two appeals were received by the Board during the second quarter of 2021, one of which relates to an application refused where the Building Condition Assessment Report had a Damage Condition Rating of 1 while the second relates to an application had a Building Condition Assessment Report had a Damage Condition Rating of 0.

8. Services provided by HomeBond

In June 2014, an agreement was signed regarding HomeBond's contribution towards technical and project management services, under the direction and supervision of the Pyrite Resolution Board and / or the Housing Agency, to the value of €2 million. HomeBond have confirmed their commitment to continue with the current agreement. The agreement continues being subject to periodical review.

It is acknowledged that HomeBond's contribution towards testing and the remediation programme has been an integral and effective part of the process.

9. Contributions from Liable Parties

In line with the provisions of the Pyrite Resolution Act 2013, the PRB may recover from any party, with a liability, and the capacity, all or part of the costs of remediating dwellings. No contributions in this regard were received by the PRB during the second quarter of 2021.

10. Refund of Compensation

Where a dwelling has been included in the Scheme but the work has not commenced and the scheme participant receives a payment other than under the Scheme, as a condition for continued inclusion in the Scheme, the scheme participant is required to pay the amount received to the PRB within a specified time period. No contributions in this regard were received by the PRB during the second quarter of 2021

11. Legal Proceedings

It is a condition of eligibility under the Scheme that the Applicant gives his/her consent to the institution by the PRB of civil proceedings relating to loss arising from the act or default of any person that causes significant pyritic damage to the dwelling.

There are currently no ongoing legal proceedings.

12. Review of Strategy 2019-2021, Business Plan 2019-2021 and Annual Report

In the second quarter of 2021:

- The ARC reviewed and approved its Terms of Reference.
- The Procurement Control Mechanisms of the PRB were reviewed by the ARC.
- The current rent allocation to Homeowners was reviewed by the Board.
- The Board reviewed and approved the Data Protection Policy.
- The Board's 2020 Annual Report was approved by the Minister and published on the PRB's website.

13. Implications of Covid-19 for the implementation of the Scheme

The Pyrite Resolution Board has taken the implications of Covid-19 on board. Pyrite remediation works have progressed in accordance with government health guidelines.

22th July 2021

Appendix A - Summary of Applications Submitted as at 30th June 2021
